

HENDERSON, NV (JUNE 17, 2009).....Laura Endicott has been named Quality Lean Manager of Cabinet Works, previously know as Owens Precisions Fabricators (OPF). Cabinet Works is a division of the Suzo-Happ Group, a leading supplier to the Gaming, Amusement and Industrial industries. Ms Enditcott will be responsible for establishing, maintaining, and improving in-process quality systems, plans, as well as verification/evaluation audits. She will drive continuous improvement and provide leadership for capability assessments, quality planning, audit system development, and statistical analyses. Ms. Endicott will also coordinate Lean projects for the continuous improvements that drive quality, on time delivery, and cost.

Ms. Endicott has an extensive background in mechanical engineering and quality assurance. Recently, she supervised and managed all quality activities, staff, and processes at Bally Technologies, Inc., Las Vegas, NV. Prior to that, she served seven years as a Quality Assurance Manager for Ocean Design, Inc., in Ormond Beach, FL. Ocean Design, Inc., manufacturers sub-sea connectors and cables for military and commercial applications. She holds a Mechanical Engineering degree from the University of Nevada.

“I am so excited to be part of the Suzo-Happ Cabinet Works Management team. We have taken our first steps on our Lean journey. As we mature in the journey we will become a strong competitor not only in our local markets, but also in the global market,” said Ms. Endicott.

Brian Carty, General Manager of Cabinet Works, said, “We are very excited to have Laura aboard. She brings engineering, manufacturing, and managerial experience that provides even more value and quality to our customers.”

About Suzo-Happ Group

The Suzo-Happ Group was formed in 2004 with the merger of Suzo International, headquartered in The Netherlands, and Happ Controls, headquartered in Elk Grove Village, IL. Major additions were made with Advanced Electronic Systems in 2005, Starpoint Electrics in 2006 and ChinaTec in 2007. The combined organization holds a global leadership position in the gaming and amusement parts and accessories market with customers in 80 countries. The company has manufacturing, engineering, distribution and service capabilities with over 650 employees on three continents. More information is available at www.suzohapp.com
